Hidden Gem! Just north of High Level, in the shadow of Watt Mountain, lies the beautiful man-made Hutch Lake. The surrounding area is complete with extensive trails for cross-country skiing and snowmobiling in the winter or hiking and quadding in the summer. The large day-use area so close to High Level makes Hutch Lake a great spot for day trips. It is just off the pavement, clean, well maintained, and a wonderful place to relax and enjoy the great outdoors. The overnight campground is open from May to September 30.

Did You Know? High Level marks the northern extent of the Peace River Country and has one of the northernmost lands suited for agriculture in Canada. It is surrounded to the north and west by muskeg tundra.
