## FOR MORE INFORMATION ABOUT OUR COMMUNITY, VISIT:

- [rainbowlake.ca](http://rainbowlake.ca)

**Hidden Gem!** Located 100 km west of High Level, Hay-Zama Lakes Wildland Park is a mosaic of lakes, flood plains and deltas. A wetland of international significance, it is used by migrating waterfowl from three of the four North American migration routes. The area is also home to a herd of wood bison.

We are supported by **Emergency Medical Services**

We are connected to the **Northwest PCN Primary Care Network**

We acknowledge that we are on Treaty 8 territory, the traditional lands of the Dene Tha', Cree, and Métis peoples. We honor their deep and lasting connection to this land and recognize the important role they have played and continue to play in this region. We are committed to learning from and working respectfully with Indigenous communities to build a more inclusive future.
