

RPAP | Health Workforce for Alberta 2014 — 2015 Key Performance Indicators

RPAP has developed Key Performance Indicators (KPIs) for each of its programs and major stakeholders. They are used to help manage, control and achieve program effectiveness and results throughout the organization.

Visit **rpap.ab.ca/kpi** to view KPI information from previous years.

SHADOWING INITIATIVE

The RPAP helps organize opportunities for medical students to job shadow rural physicians. First-year and second-year medical students have an opportunity to shadow a rural physician for all, or part of, a weekend on-call. There are approximately 50 rural sites involved, with up to 100 physicians who are willing to have a medical student shadow them.

Objective

To expose medical students to rural medical practice early and often.

Number of rural general practitioners who participated in the Shadowing Initiative

Physicians involved in the Shadowing Initiative (2014/15)

Increase since 2013/14

Percentage of rural physician preceptors who indicated overall satisfaction with the Shadowing Initiative

Percentage of students who indicated overall satisfaction with the Shadowing Initiative

Percentage of first-year and second-year medical students who participated in the Shadowing Initiative

RPAP I Health Workforce for Alberta supports Alberta's rural practitioners, their families and communities in improving the quality of rural health care by offering comprehensive, integrated initiatives to enhance rural medical services, education, attraction, recruitment, and retention.
