ACCOMMODATION

Registrants must make their own accommodation arrangements. We recommend:

Banff Park Lodge
222 Lynx Street, Banff, AB
Toll Free 1.800.661.9266
www.banffparklodge.com

A limited number of rooms have been held until December 23, 2014 at the rate of \$125.00 per night plus taxes. Please indicate you are with the University of Calgary Emergency Medicine for Rural Hospitals course to obtain this rate. For on-line website reservations please go to www.banffparklodge.com. No on-line bookings can be made after Tuesday, December 23, 2014.

TRANSPORTATION

AIR All major airlines fly into Calgary International Airport

BANFF AIRPORTER SHUTTLE To receive a 15% discount on shuttle service between the Calgary airport and Banff, book on-line or phone:

- www.banffairporter.com/book and enter the Promotional Code CME on the final payment page
- Toll Free 1.888.449.2901 and indicate you are with the University of Calgary CME course

CAR RENTALS For car rental agents at the Calgary International Airport, www.calgaryairportcarrental.net

31ST ANNUAL EMERGENCY MEDICINE FOR RURAL HOSPITALS

Friday-Sunday, January 23-25, 2015

Banff Park Lodge, 222 Lynx Street, Banff, AB

COURSE OVERVIEW

The vision of this course is to provide clinical topics relevant to physicians, nurses and other healthcare professionals practicing in rural communities.

Through a combination of plenary lectures, small group interactive sessions and hands-on workshops, participants will review current issues, guidelines and trends in the management of patients presenting to the emergency department in rural hospitals.

COURSE OBJECTIVES

The intent of the conference is to provide learners the opportunity to:

- develop and enhance their assessment, investigation and treatment skills for urgent and emergency patients presenting to the emergency department in rural hospitals
- identify patients who can be optimally managed in a rural setting and those who require transfer to a larger centre
- exchange ideas and information with other rural health professionals during shared learning experiences

WHO SHOULD ATTEND

Physicians, nurses and other healthcare professionals practicing in rural communities.

CREDITS

MAINPRO-M1 – 11.0 credits

cumming.ucalgary.ca/physicians/cme/courses

COURSE PROGRAM

Friday, January 23

- 1800 Registration
- 1845 Opening Remarks
– Anton Nel, Susan Bengivingo
- Greetings from the Continuing Medical Education and Professional Development Office
– CME Representative
- 1900 **KEYNOTE**
Jump to the Pump: Strategies to Improve Outcomes from Cardiac Arrest
– Adam Cheng
- In the commotion of the emergency room, healthcare providers sometimes struggle to provide effective CPR. This session will describe innovative strategies to optimize CPR and improve outcomes from cardiac arrest.
- 2000 **SHORT SNAPPER / PLENARY**
Working Together in a Rural Community Hospital
– Steve Douglas, Jennifer Drover
- Physicians and nurses in rural hospitals are recognized as generalists in medicine. During this short snapper, an emergency department team will provide their insights and perspectives on working and collaborating together to provide patient care.
- 2030 Reception
An opportunity to socialize and network with colleagues while enjoying a wine and cheese reception.
- 2030 Planning Committee Meeting

Saturday, January 24

- 0715 Continental Breakfast
- 0745 Welcome / Announcements
– Anton Nel, Susan Bengivingo
- 0755 **PLENARY**
Fluid Resuscitation in the Trauma Patient
– Lyle Thomas
- This session will provide a review of optimal fluid resuscitation strategies for the trauma patient presenting in hemorrhagic shock.

- 0840 **PLENARY**
Stabilizing the Rural ED Patient for Transport
– Mark MacKenzie
- This session will provide useful, evidence-based tips for each of the ABCs of stabilization.
- 0920 **SHORT SNAPPER**
NSTEMI – The Grey Areas
– Bill Sevcik
- The diagnosis of NSTEMI in patients can be more difficult to establish than STEMI. This session will discuss risk stratification, medical therapies and potential pitfalls.
- 0950 Break
- 1020 CONCURRENT WORKSHOPS
- 1115 Move to Next Session
- 1130 CONCURRENT WORKSHOPS
- 1225 Lunch
- 1315 CONCURRENT WORKSHOPS
- 1410 Move to Next Session
- 1425 CONCURRENT WORKSHOPS
- 1520 Move to Next Session
- 1535 CONCURRENT WORKSHOPS
- 1630 Adjournment

See pages 3-6 for CONCURRENT WORKSHOPS information and listing

- 1700-1900 **Alberta Medical Association Section of the SRPC**
Annual General Meeting
CHAIR/HOST – Tobias Gelber, President
- PRESENTATION
Rural Update
– Guest Speaker from the Alberta Medical Association
- All members of the Section of Rural Medicine are welcome to attend. Appetizers and refreshments will be served.

PROGRAM MAY CHANGE DUE TO CIRCUMSTANCES BEYOND OUR CONTROL

COURSE PROGRAM

Sunday, January 25

CLINICAL CHALLENGES IN THE RURAL EMERGENCY DEPARTMENT

Sunday morning's plenaries focus on difficult situations in the rural ED, including managing the agitated patient, discerning potential toxicity and initiating system support. A veteran Emergency Medicine physician will finish the morning with lessons learned from a lifetime of rural practice.

0715 Continental Breakfast

0800 Welcome / Announcements
- Anton Nel, Susan Bengivingo

0810 **PLENARY**
The Agitated Patient in the ED
- Jane Gainer

This session will discuss the assessment and management of the agitated patient, including discussion of community resources.

0900 **PLENARY**
Toxicity and the Agitated Patient - When is Testing Important?
- Ryan Chuang

The cause of agitated confusion can sometimes be traced back to medications or other chemical agents - how do you discern the role of toxicity as a factor for agitation, and when is it important to order STAT drug screens for agitated patients in the ED?

1000 Break

1020 **SHORT SNAPPER**
RAAPID - From Advice to Admission
- John Montpetit, RAAPID team

This presentation will provide an overview of RAAPID (Referral, Access, Placement, Information and Destination) Services, as well as case studies that highlight lessons learned, and ways RAAPID can assist you with advice, facilitating patient transfer to higher levels of care, accessing specialty services and repatriation back to the home community.

1100 **PLENARY**
Pearls from the ER that will Knock Your Socks Off
- Jim Cross

Nebulized salbutamol is out for bronchiolitis, immersion in ice cold water is in for heat stroke, emergency contraception that doesn't work, magnets, batteries, codeine, skull x-rays and much, much more.

1200 Closing Remarks / Adjournment
- Gavin Parker, Carolyn Robbins, Renee Deagle

The new course co-chairs for 2016 will briefly discuss the importance of engaging medical/nursing students and residents into the community of rural practitioners from their initial exposure to rural medicine.

CONCURRENT WORKSHOPS INFORMATION

Saturday, January 24

1020, 1130, 1315, 1425, 1535

Each concurrent workshop is 55 minutes long with 15 minutes for travel to the next session - lunch is 1225 to 1315.

Concurrent workshop sessions have been designed for physicians/nurse practitioners, nurses or both (multi-disciplinary).

GROUP A sessions are designed for the identified health professionals, although other disciplines are welcome to attend.

GROUP B sessions are restricted to members of the identified health discipline. By their nature, these sessions are limited capacity therefore participants may attend a maximum of two Group B sessions.

Sessions will be held at the Banff Park Lodge and the Mineral Springs Hospital (located next to the hotel). NOTE - A short walk between the two venues in winter conditions may be required.

REGISTER EARLY TO ENSURE YOUR CHOICE OF WORKSHOP SESSIONS

PROGRAM MAY CHANGE DUE TO CIRCUMSTANCES BEYOND OUR CONTROL

CONCURRENT WORKSHOPS

GROUP A

- A1 Procedural Sedation
PHYSICIAN/NP
– Michael Murphy
Titrate your sedation and avoid apnea, hypoxemia, aspiration and death! The new provincial policy changes for procedural sedation will also be discussed.
- A2 Potpourri of Cardiology Cases
PHYSICIAN/NP
– Eddy Lang
This case-based presentation will discuss thrombolysis in STEMI, suspected ACS and NSTEMI ECG review.
- A3 Evidence-based Treatment of Acute Headache
PHYSICIAN/NP
– Brian Rowe
Acute headache is a common presentation in the emergency department. Once sinister causes have been ruled out and the diagnosis of benign headache is made, treatments vary and practice variation is common. This workshop uses case-studies to review evidence-based management of acute headache.
- A4 Challenges of a Practicing IMG in Rural Alberta
PHYSICIAN/NP
– Gavin Sun
This interactive presentation will discuss the personal and professional challenges faced by international medical graduates working in rural practice in the 'Great White North'. This workshop offers approaches we can use to reduce any negative effects resulting from these challenges, to optimize both physician and patient wellness.
- A5 Tips and Tricks Dealing with Pediatric Fractures and Reductions
PHYSICIAN/NP
– Elaine Joughin
This workshop will discuss the radiographic appearance of fractures in children including physeal injuries, and the management of pediatric fractures with an emphasis on closed reduction and appropriate casting techniques.
- A6 Obstetrical Emergencies: Walking a Tightrope Without a Safety Net
PHYSICIAN/NP
– Virginia Clark
Recognizing and managing serious conditions when a pregnant woman presents to the ED.
- A7 You Are Not Alone: Overcoming Barriers to Physician Wellness in Rural Practice
PHYSICIAN/NP
– Sara Taylor
Physicians working in a rural environment often face unique challenges related to their personal wellness including access to resources to enhance their wellness. This interactive presentation will explore physician health and wellness as it pertains to physicians living and working in a rural practice.
- A8 Assessing Suicidal and Self-Harming Patients in the Rural Emergency Department
PHYSICIAN/NP
– Jane Gainer
This case-based workshop offers a practical approach including tips on taking an accurate history and developing a sound treatment plan.
- A9 Ophthalmology Emergencies
PHYSICIAN/NP
– Jamie Bhamra, Gordon Douglas
An overview of common eye emergencies and discussion of cases seen in a rural ED.
- A10 Choose Your Own Life: Developing Resilience in Rural Emergency Medicine
MULTIDISCIPLINARY
– Jared Bly, Kristy Penner
This participatory session is designed to equip practitioners with tools that can increase life and workplace happiness by developing empathy, self-awareness and self-management techniques. Learn how to measure your APGAR score to monitor your wellness.
- A11 Common ED Challenges: Pearls and Pitfalls
MULTIDISCIPLINARY
– Mike Wickham
This interactive session will include ECGs, common medications, procedural sedation, airways and C-spine X-rays amongst other common challenges found in the rural emergency department.
- A12 So You Think You Know How to Treat Anaphylaxis
MULTIDISCIPLINARY
– Jim Cross
Using a case study, discuss the current concerns related to the diagnosis and management of anaphylaxis and factual clinical pearls focusing on epinephrine.

PROGRAM MAY CHANGE DUE TO CIRCUMSTANCES BEYOND OUR CONTROL

CONCURRENT WORKSHOPS

GROUP A ... CONTINUED

- A13 ABCs of Diabetic Ketoacidosis
MULTIDISCIPLINARY
– Lyle Thomas
Simplifying the diagnosis and early management of DKA in the rural ED setting.
- A14 Acute Coronary Syndromes
MULTIDISCIPLINARY
– Bill Sevcik
What are the pearls and pitfalls in the diagnosis of ACS? This session will discuss the best evidence approach to management of STEMI and will include specific must-not-miss diagnoses.
- A15 What You Need to Know: Restraint Monitoring and Searching the At Risk Patient in the ED
MULTIDISCIPLINARY
– Alexis Mageau, Monique Fernquist
This case-based session will discuss best practices for searching the at-risk patient and utilizing the restraint suite, including monitoring patients and anticipating adverse consequences.
- A16 Lessons Learned from Common ED Presentations
MULTIDISCIPLINARY
– Stefan DaSilva
This case-based workshop shares practical tips on successful initial management strategies for some of the commonest presentations we see in emergency settings.
- A17 Management of Labour with Fetal Heart Abnormalities
NURSE
– Carolyn Robbins
This case-based presentation will discuss how the nurse can best manage atypical labour when delivery is imminent and the unexpected happens.
- A18 Challenging Pediatric Trauma Cases
NURSE
– Sherry MacGillivray
Have you been involved in a challenging pediatric trauma and were not sure if your team's management was the best? Discussion will be evidence-based treatment for pediatric trauma cases that have been sent to the Alberta Children's Hospital.

- A19 Hemiblocks Revealed
NURSE
– Christopher Coltman
This presentation will review 12 lead axis determination and its clinical implications. Through an understanding of how to determine the axis, the participant will be able to interpret hemiblocks, most importantly a left anterior hemiblock. The ECG characteristics, pathophysiology and clinical significance of hemiblocks will be discussed.
- A20 Pediatric RSI – When, What and What If?
NURSE
– Charlene Hutchinson, Bernie Walker
Learn strategies for dealing with airway emergencies with tips for RSI, medications and equipment.

GROUP B

- B1 Advanced Suturing Techniques in the Rural ED
PHYSICIAN/NP ONLY
– Stuart Johnston
Demonstration and hands-on practice of advanced suturing techniques, focusing on repair of complex lacerations and extensor tendon repair amongst other common suturing challenges.
- B2 Practical Skill Development for Ophthalmology Exams
PHYSICIAN/NP ONLY
– Jamie Bhamra, Gordon Douglas
Practical skill development to respond to ocular emergency presentations, including use of slit lamps, lid turning and application of eye bandages.
- B3 PART 1 Systematic Approach to a Knee Exam
PHYSICIAN/NP ONLY
– Victor Lun
Inspection, range of motion, strength and other testing.
PART 2 Systematic Approach to a Shoulder Exam
PHYSICIAN/NP ONLY
– Marcus Robinson
Inspection, range of motion, tenderness, ligament laxity and testing.

PROGRAM MAY CHANGE DUE TO CIRCUMSTANCES BEYOND OUR CONTROL

CONCURRENT WORKSHOPS

GROUP B ... CONTINUED

- B4** Joint Injections
PHYSICIAN/NP ONLY
– Victor Lun, Marcus Robinson
Hands-on practice of common joint injections using simulators.
- B5** The Pediatric Airway Course/KidSIM-ASPIRE
3 HOUR AFTERNOON SESSION
MULTIDISCIPLINARY
– Mark Gale (lead), Mark Bromley, Gavin Burgess, Eli Gilad, David Lardner, Catherine Ross, Ian Wishart, Traci Robinson
In this 3 hour workshop, facilitated by a team of physicians from Alberta Children's Hospital, participants will work through common pediatric airway emergencies using Pediatric Patient Simulators and other task trainers. Participants can expect concentrated hands-on practice with airway adjuncts.
- B6** STARS Human Patient Simulator
MULTIDISCIPLINARY
– Dave Allison, STARS Mobile Simulator Program Leader
Hands-on simulated practice on cases involving the need for transport using the STARS (Shock Trauma Air Rescue Service) mobile Human Patient Simulator.
- B7** Adult Human Patient Simulator
MULTIDISCIPLINARY
– Bobbi Johal, Cherie Serieska, eSIM Emergency Physician
Hands-on practice with a high-fidelity simulator involving a realistic case of an adult patient presenting to the ED.
- B8** Epistaxis Management: Acute Intervention for Epistaxis and Peritonsillar Abscess
MULTIDISCIPLINARY
– Brad Mechor
Preparing, packing techniques and red flags to watch for after the packing has been accomplished.
- B9** Bare Bones
MULTIDISCIPLINARY
– Carole Rush and a physician
A comprehensive overview of the use of the intraosseous route for fluids and medications for adult and pediatric patients. This session includes demonstration and practice of landmarking sites, insertion technique, fluid and medication administration, troubleshooting and device securement.
- B10** Airway Management
MULTIDISCIPLINARY
– Heather Grant, Gavin Parker, Carl Thiessen
This session provides hands-on practice involving assessment of the airway in adults and children and the use of airway adjuncts.
- B11** Emergency Deliveries for Nurses
NURSE ONLY
– Virginia Clark, Carolyn Robbins
Demonstration and hands-on practice that will build skills and confidence for nurses who attend deliveries in the absence of the doctor or the midwife. Topics include obstetrical scenarios such as shoulder dystocias, precipitous delivery and post-partum bleeding.
- B12** The First 15 Minutes of the Code Blue
NURSE ONLY
– Jan Kautz, Thora Skeldon, Jennifer Woods
What can and should a nurse do to help manage a Code Blue before the physician arrives? Includes opportunity for hands-on practice with scenarios seen in rural settings.
- B13** It's Ortho Time ...
NURSE ONLY
– Nurse, Orthopedic Technologist
This hands-on session will give the Rural ED Nurse valuable tools to deal with many orthopedic injuries. Topics include assessment strategies, a practical approach to splints and back slabs, application of an air cast and volar splint, crutch teaching and much more.

DISCLOSURE OF POTENTIAL FINANCIAL CONFLICTS OF INTEREST

In keeping with accreditation guidelines, speakers participating in this event have been asked to disclose to the audience any involvement with industry or other organizations that may potentially influence the presentation of the educational material. Disclosure will be done verbally and using a slide prior to the speaker's presentation.

ACCREDITATION

The University of Calgary – Office of Continuing Medical Education and Professional Development is fully accredited by the Committee on Accreditation of Canadian Medical Schools (CACMS).

STUDY CREDITS

CFPC

MAINPRO-M1

This program meets the accreditation criteria of The College of Family Physicians of Canada and has been accredited by the University of Calgary Office of Continuing Medical Education and Professional Development for up to 11.0 MAINPRO-M1 credits.

GUIDELINES FOR THE AMERICAN ACADEMY OF FAMILY PHYSICIANS

Members of the American Academy of Family Physicians are eligible to receive up to 11.0 prescribed credit hours for attendance at this meeting/event due to a reciprocal agreement with the College of Family Physicians of Canada.

ADDITIONAL PROGRAM INFORMATION

DRESS

Dress is business casual. Sweaters or items of clothing that can be layered are recommended since temperature in the venue may fluctuate.

MEALS

In general, each course offers a light breakfast, nutrition break(s) and lunch. We are unable to accommodate special dietary restrictions (for example, gluten free, peanut allergies).

SCENT FREE

To ensure the comfort of everyone attending this event, we ask you to not wear scented products.

GENERAL INFORMATION

REIMBURSEMENT OF REGISTRATION FEES

Physicians may be eligible for reimbursement of registration fees and expenses to attend CME courses from a fund administered by the Alberta Medical Association. For more information regarding this, please visit <https://www.albertadoctors.org/leaders-partners/quality-and-education-programs/cme/claim>.

COURSE CANCELLATION POLICY

The Office of Continuing Medical Education and Professional Development reserves the right to cancel the course if there are insufficient registrations.

CONFIRMATION OF REGISTRATION

For on-line registration, registrant will receive an automatic confirmation email right after the registration.

For paper-based (faxed or mailed) registration, confirmation of registration will be in the form of a mailed tax receipt. No other confirmation message will be sent. Please allow 2 weeks for registration processing.

REFUND POLICY

A registration refund will be made upon written request no later than 10 business days prior to the course. However \$50 will be retained for administrative costs. No refund will be made for cancellation after the 10th business day prior to the course. NOTE Refunds are processed only on the return of original receipt. All receipts must be returned within 30 days after program date.
